

EBC Pre-school Local Offer.

EBC's SEN Policy, which can be obtained from the setting, sets out how we will support children with SEN wanting to attend EBC pre-school and also those that present with SEN whilst at pre-school.

Access'facilities.

EBC pre-school has wheelchair access to the building and also out into the outdoor play area. The main indoor play area has no fixed furniture making arranging activities to include children with SEN/disabilities manageable.

Curriculum.

For all children with SEN/disability a provision mapping form will be completed, looking at what the child's needs are and how pre-school can match these needs, also whether any additional help/training is necessary. EBC offers additional support within sessions, sometimes this will take the form of 1-1 sessions or small groups work. All staff are kept up to date about children's progress and appropriate strategies to use with specific children.

Contact.

All children are unique and we welcome all potential parents/carers to visit pre-school with their child to meet the staff and see how a pre-school session runs. This is a good opportunity to talk about any needs, what parents expect from a pre-school experience and how EBC pre-school can meet those needs.(See contact details on website).
